OBJECTIVES

B.Tech Computer Science and Engineering graduate with hands-on experience in Python, React.js, JavaScript, SQL, REST APIs, and full-stack application development. Skilled in developing reusable web components, backend services, CRUD APIs, database-driven applications, authentication, input validation, and application security. Strong foundation in PostgreSQL/MySQL, API integration, Object-Oriented Programming, testing, debugging, and Data Structures and Algorithms. Familiar with cloud technologies, software development practices, and building maintainable and scalable applications.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL
- **Data Engineering:** Data Engineering Fundamentals, Data Processing, Data Transformation, Data Validation
- **Database Technologies:** MySQL, SQL, Database Connectivity, Relational Databases
- **Linux:** Linux Commands, File Management
- **Backend Development:** Flask, REST APIs, CRUD Operations, API Integration, FastAPI (Basic)
- **Frontend Development:** React.js, HTML5, CSS3, JavaScript
- **Python Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn
- **Software Development:** Object-Oriented Programming, Data Structures and Algorithms, Testing, Debugging
- **Cloud Technologies:** AWS EC2, AWS RDS, AWS S3
- **Core Subjects:** DBMS, Operating Systems, Computer Networks
- **Soft Skills:** Problem Solving, Teamwork, Communication, Adaptability

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology Chennai, Tamil Nadu
Bachelor of Technology in Computer Science and Engineering GPA: 8.5/10.0
Aug 2022 – Mar 2026

Ratnam Junior College Nellore, Andhra Pradesh
Intermediate GPA: 7.5/10.0
Jun 2020 – Mar 2022

Ratnam High College Nellore, Andhra Pradesh
10th class GPA: 8.5/10.0
Jun 2019 – Mar 2020

INTERNSHIP / TRAINING

Python Full Stack Developer Trainee / Intern – Codegnan 2026

- Worked with HTML5, CSS3, JavaScript, React.js, SQL, and MySQL for frontend, backend, and database integration.
- Developed and practiced REST APIs, CRUD operations, database connectivity, application testing, and debugging.

PROJECTS

AI-Augmented Security Framework for Detecting SQL-Based Data Breach Attacks Python — TensorFlow — Machine Learning

- Developed a Python-based security framework to detect SQL injection attacks using machine learning and text classification techniques.
- Implemented input validation and parameterized queries to strengthen application security and prevent SQL-based attacks.

Empowering Everyone Through Mobile Banking Python — Blockchain

- Developed a Python-based banking application with user authentication, balance tracking, and peer-to-peer transaction functionality.
- Integrated blockchain technology to provide secure, transparent, and tamper-resistant transaction records.

CryptoConnect: Your Ethereum Transaction Network Python — Ethereum — Smart Contracts

- Developed a secure cryptocurrency transaction application using Python and Ethereum blockchain technology.
- Implemented backend logic and smart contracts to support automated, transparent, and secure transactions.

CERTIFICATIONS

- **IBM z/OS Mainframe Practitioner Certification** – IBM
- **AWS Academy Cloud Foundations** – Amazon Web Services Academy

ACHIEVEMENTS & LEADERSHIP

- Participated in Unnat Bharat Abhiyan (UBA), contributing to rural development and community service initiatives.

- Participated in technical workshops, coding sessions, and International Yoga Day activities organized by the college.
